

TY Berlin 2019

For all those who are keen on exploring or would like to spend a fabulous time with friends away from home, Mounthawk's trip to Berlin is something to definitely consider. The city's alluring architecture, vibrant culture, fantastic food and tangible history are just some of the things that the trip offers. While visiting the many monuments that stand as symbols of division during times of war such as the Brandenburg Gate, Charlottenburg Palace and Soviet War Memorial, you'll find yourself mesmerized by their stories and their elegant compositions. By touring the city and its fascinating museums like Checkpoint Charlie, Sachsenhausen Memorial, the Reichstag and the Berlin Story Bunker - you will get to see the bitter past of Berlin in an intriguing and entertaining way. And for those who are not too fond of historical outings, the trip still offers numerous shopping opportunities in some of Europe's famous shopping districts like the Kudamm, Potsdamer Platz and a wonderful panoramic view of the city from the TV Tower.

Other recreational activities included Laser Tag, Bowling and the Ritter Sports Chocolate Factory; all which are beyond enjoyable and full of laughs and giggles with friends. Above all else, this short stay was an unforgettable experience; and I'm sure that you will certainly look back on it with fondness, as I did.
